

Conflict Minerals Policy Statement

Halsit Holdings dba ABBATRON is committed to social responsibility and ethical business practices, and therefore we expect our suppliers to do the same.

We do not knowingly purchase products containing conflict minerals and we require our suppliers to do the same and comply with Dodd-Frank Section 1502 legislation and reporting rules. Reasonable actions must be taken to make sure that the tin and gold used in their products originate from outside the conflict region as reported in EICC Conflict Minerals Reporting Template supplied to us.

Abbatron has conducted and will continue to conduct a survey confirming policies and conflict free status from our current suppliers of finish surface.
