

**Certificate of Compliance – (EU) 2019/1021
Persistent Organic Pollutants (POP)**

June 26, 2025

Persistent Organic Pollutants (POPs) are toxic substances composed of organic (carbon-based) chemical compounds and mixtures. They include industrial chemicals like PCBs and pesticides like DDT.

Abbatron declares that all products manufactured by Abbatron, as of the date of issuance of this Declaration, comply with Persistent Organic Pollutant (EU POP) regulation (EU) 2019/1021 as defined by the Stockholm Convention on Persistent Organic Pollutants and /or in the Protocol on Persistent Organic Pollutants **last updated 31 October 2024**, including, but not limited to, all PFOA and PFOS restrictions listed, included in Annexes I, II, III, and IV of the above regulation.

Additional information on the Persistent Organic Pollutant (EU POP) (EU) 2019/1021 regulation can be found at the following link:
